

DYNICE Dux Rope

Product information

High performance ropes for various applications with high strength and durability. These ropes combine good strength retention with good flexibility and dynamic properties. Making terminations is easy through splicing where up to 90% of linear strength is retained.

Design:

Very firm, heat set and stretched 12-strand Dyneema® SK99 rope with smooth Durapur impregnation for abrasion resistance. The constructional elongation has been removed in the production process and stretch is extremely low. Very popular for their roundness and smooth surface.

The ropes are soft and flexible and easy to splice.

Material: Dyneema®

| Part Code | Diameter mm | MBL ton | MBL unspliced ton | Weight in sea kg | Weight kg |
|-----------------|-------------|---------|-------------------|------------------|-----------|
